

Post Title: Software Engineer

Location: Vertual Ltd, Cottingham Road, Hull

Exciting software engineering opportunity

Vertual Ltd is an award winning, high technology company supplying virtual environment systems for training and education in radiotherapy and radiography. We have supplied systems to all 10 training centres and the substantial majority of radiotherapy hospitals in England. We have also supplied systems to Northern Ireland, Wales, Canada, Denmark, the Netherlands and Russia. Further sales are expected throughout Europe, North America and Australasia.

This post concerns software development of an application which provides a life size virtual environment of a radiotherapy treatment room. This includes visualization and simulation of the equipment, patient and radiotherapy treatment, as well as a wide range of tools to facilitate effective training. You will join a small dynamic team of developers and work on the cutting edge of graphics programming. The post will cover all aspects of software development.

Applicants should have a degree in computer science and relevant software development experience and knowledge of graphics. Good knowledge of software development in C++ is essential. Practical experience with computer graphics, OpenGL, associated mathematics and virtual environments or a relevant higher degree (MSc, PhD) would be advantageous.

We require a self-motivated and conscientious person, who will embrace the challenges of working in a dynamic and vibrant company as it expands its operations globally.

Salary range: A remuneration package of up to £38,000 per annum depending on experience.

Closing date: 10th May 2010 Reference: ST006

There are no restrictions on who may apply
